Part #: CT1228-2-99-007   BPLM (w/RTU)
Part #: CT1228-2-90-001   RTU Upgrade Kit

## BPLM (Broadband Powerline Modem) Reset Timer Upgrade (RTU)

- **Resets occasional freezes in network connectivity which may disrupt broadband communications underground**

- **The RTU is a timer relay used to cycle power to the Spitfire® BPLM**

- **Power interruption for reset is 1 to 2 seconds and network connectivity is re-established within 10 seconds**

- **RTU can be pre-fitted in new BPLMs if requested.**

- **NAUTITECH® technicians can easily retrofit the RTU and upgrade existing BPLMs in the field** *(fees apply)*
